

<p align="center">Contractors must provide each worker under their control with appropriate supervision, instructions and information so that construction work can be carried out without risks to health and safety.</p> <p align="center">The Principal Contractor or Contractor (on single contractor projects) must ensure a suitable Site Induction (SI) is provided to every site worker.</p> <p>Site inductions should also be provided to those who do not regularly work on the site, but who visit it on an occasional (e.g. architects) or once-only basis (e.g. students). Inductions provided to escorted visitors need not have the detail that unescorted visitors should have. Escorted visitors only need to be made aware of the main hazards and control measures.</p>
